

# BUTLER & LAND INC.

ELECTRICAL TEST EQUIPMENT & PROCESS CONTROLS

DALLAS • HOUSTON • NEW ORLEANS • TULSA

## SICK Group

# SICK

Butler & Land is proud to introduce a new SICK safety light curtain, the C4000 Select. This versatile light curtain can be used in applications varying from automotive production, to materials handling. The C4000 Select also uses standard M12 Cables and has a built-in laser alignment beam.

### C4000 Select

- Uses DIP Switches
- Versatile Applications: Automotive, Packaging, Food and Beverage, Robotic Cells, and More
- Cascadable with S300 and S3000
- Designed Specifically for North American Customers
- Intuitive and Visible Diagnostics
